Modern Application Process. Faster Time to Issue.

Submit more business with the e-application your advisors will want to use. Turn inefficient and dated processes into fast and modern experiences with FireLight® e-application. A practical solution for carriers and distributors that makes processing business smooth and easy.

Capture complete data, collect signatures, and submit to carriers with a simple straight-through process.

Sales when you need them, where you need them...

- All lines of business, all product types
- New business, replacement, subpay processing
- Carrier applications
- Distributor compliance and suitability forms
- License and appointment check
- Suitability scoring
- Reg 60 and similar industry regulatory support
- E-signature built-in
- Suitability workflow and review queues

Improve the way advisors engage clients and capture business...

- Rules-driven data collection and reflexive questioning
- Suitability, regulatory and compliance workflows
- Connected, disconnected and mobile app accessibility
- Back-office workflow and approval management
- Automated audit trail and usage reporting
- Built-in signature and e-signature options
- Client fill and sign features
- Single sign-on, data and system integration
- Branding and user experience options
- Electronic fund transfer and money settlement options

Why Hexure

At Hexure we believe in a digital future where consumers can buy financial and insurance products with ease from anywhere at any time.

Our innovative, customer-centric sales experiences enable advisors to spend less time processing and more time selling.

Join us in building the digital landscape of the insurance and financial services industry.

Step out of "the way it's always been done" and into the way it should be done.
